EASY INFORMATION FOR PARENTS

TALK WITH YOUR CHILD

Kids who start kindergarten knowing lots of words, do better in school.

- Kids practice language by talking with you.
- Look at each other, face to face, when you speak
- Wait before replying to what they say
- Take one speaking turn at a time
- Show you are listening: look them in the eye, nod your head, and make comments like, "Oh", "Really?", "What happened next?"
