# About Us

We are a network of organizations and community members working together for the benefit of families in our downtown neighbourhoods. Our working committees use the following pillars to inform our activities:

- Positive Parenting

We offered grants and bursaries to downtown agencies. 187 families were served through those parenting and parent-child programs.

We supported workshops, training and professional development for 43 people from 20 agencies. 14 workshops/ trainings were offered over the year (8 different ones).

*Raising the Village...*

"It takes a village to raise a child, but what does it take to raise a village? The fields of early childhood work and community development can unify their concerns, expertise, and vision — and in the process create villages that develop their communities by developing their children."

from Raising the Village by Tracy Smyth and Tammy Dewar
